

## User Manual

Once the application is running on the local server, it is possible to use it as a user. The application is very intuitive; however below are some instructions for the main pages:

Entry page (index.php)

On this page it is possible to log in with:

- **Kitchen user:**
  - **Username to test:** user2; password: abc123
  
- **Guest users:**
  - **Username1 to test:** user1; password: abc123
  - **Username2 to test:** user3; password: abc123

It is possible to create a new user by clicking on “Create Account”:

The screenshot shows a web browser window with the address bar displaying "montalvomolina.mgd.ca/registrarcuenta". The main content is a registration form titled "Register account". The form has a dark blue background with white text and input fields. It includes the following fields: "User type" (a dropdown menu with "Guest" selected), "Room number" (a text input field with placeholder "Enter your room number"), "Name" (a text input field with placeholder "Enter your name"), "Email" (a text input field with placeholder "Enter your email"), "Username" (a text input field with placeholder "Create a username"), and "Password" (a text input field with placeholder "Enter your password"). At the bottom left of the form is a "<< Back" link, and at the bottom right is a blue "Create account" button.

This form has validations for entering information.

If you want to add a kitchen user, you must enter the **"Kitchen Code"**, please enter the value **"abcd"**; after logging in with a username and password, you will be able to access the application's work pages.

Below are some instructions on the main pages.

### Home Page

If you log in with a valid username and password, you will enter the following screen; If you log in with a valid username and password, you will enter the following screen; here it is possible seeing the general information about the application and it is possible seeing the dishes and reservations links.
